Rep. Gerry Connolly
Rep. Don Beyer
Accotink watershed supervisors

January 22, 2016

Fort Belvoir has issued a Supplemental Environmental Assessment for the proposed Army Residential Communities Initiative housing plan that would account for a loss of 31 vegetated acres. It would also increase impervious surface in a region categorized by Fairfax County as a watershed protected area.

The Friends of Accotink Creek endorse the attached comments and concerns offered by our sister watershed organization, Friends of Huntley Meadows.

We respectfully request Fort Belvoir work with Fairfax County in order to receive a full environmental impact statement for the proposed project, addressing all issues raised by the Friends of Huntley Meadows.
