Regarding – Case PUE-2015-00133, Dominion Virginia Power

The Friends of Accotink Creek wish to express support for the positions of our sister group, Friends of Huntley Meadows Park.

- Analysis of pole height alternatives is needed.
- Historic viewsheds require protection
- Bird collisions must be minimized
- Pole placement needs to protect natural, historical, and cultural resources
- Construction practices must meet the higher standards called for in this sensitive area
- Materials used in construction must be environmentally safe and exclude coal ash
- Compensatory mitigation must be provided for adverse impacts, including pre-application work

The Huntley Meadows area is a natural treasure that requires protection efforts that go above-and-beyond the ordinary.

Sincerely,

Friends of Accotink Creek : : www.accotink.org
